Firm Information: Riverbridge Partners, LLC is a Minnesota based investment advisor registered with the Securities and Exchange Commission under the Investment Advisors Act of 1940. The firm provides investment management services to institutional and individual investors. The company offers growth-oriented investment services by investing in growth equity securities, which it believes will provide high returns over the long term. The firm's standard fee schedule is an annual 1%.

Composite Characteristics: The Small Cap Growth Composite was created in July 1988. It is a growth stock portfolio invested in small to medium sized growth companies. This strategy generally invests in companies with market capitalizations of less than \$5 billion. A complete list and description of all firm composites is available upon request. The composite benchmark is the Russell 2000® Growth Index. The Russell 2000® Growth Index includes the segment of securities within the Russell 2000® Index with higher price-to-book ratios and higher forecasted growth values. The Russell 2000® Index is an unmanaged index measuring the performance of the small-cap U.S. equity universe. Prior to 2008, the Russell 2000® Index was also shown for general market comparison purposes. The composite minimum value is \$100,000.

Calculation Methodology: Valuations and returns are computed and stated in U.S. dollars. Individual portfolios are revalued daily starting 1/1/2009. Prior to that, individual portfolios were revalued monthly and intra-month when large cash flows (defined at 10%) occurred. Gross-of-fee returns are calculated net of transaction costs and gross of management fees. Until 12/31/2007, net performance was calculated by applying the maximum annual management fee of 1% to gross performance on a monthly basis. Starting 1/1/2008, net-of-fee returns are calculated net of actual investment management fees. Both gross-of-fee and net-of-fee returns are calculated gross of all withholding taxes on foreign dividends. Accruals are included in calculations. The dispersion measure is the equal-weighted standard deviation of accounts in the composite for the entire year. Additional information for valuing portfolios, calculating performance and preparing compliant presentations is available upon request.

A description of Riverbridge Partners' advisory fees are disclosed on Part 2 of its Form ADV, a copy of which is available upon request.
- Past performance does not guarantee future results.
- Performance results do not reflect the impact of taxes.
