Your federal tax withholding rate is determined by the type of payment you will receive. For nonperiodic payments, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100% on line 2 (below). Generally, you can't choose less than 10% for payments to be delivered outside the United States and its possessions. See the instructions and the Marginal Rate Tables (below) for more information.

Line 2

Complete this line if you would like a rate of withholding that is different from the default withholding rate. See the instructions and the Marginal Rate Tables (below) for additional information. Enter the rate as a whole number (no decimals). Withhold Federal Income Tax of _____ %

Note: Unless a previous federal income tax withholding election is in place, or you indicate a different withholding amount above, your IRA Trustee/Custodian will withhold federal income tax at a default rate of 10%. Your withholding election is valid until you change it.

Please see Part IX for options for state income tax withholding.

2024 Marginal Rate Tables

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. See “**Suggestion for determining withholding**” below for more information on how to use this table.

General Instructions

Section references are to the Internal Revenue Code.

Future developments. For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to www.irs.gov/FormW4R.

Purpose of form. Complete Form W-4R to have payers withhold the correct amount of federal income tax from your nonperiodic payment from your individual retirement arrangement (IRA). See below for the rules and options for the payment. For more information on withholding, see Pub. 505, *Tax Withholding and Estimated Tax*.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments unless you enter a different rate on Line 2 of this withholding certificate. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering “-0-” on Line 2 of this withholding certificate. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including “-0-”) on any payments to be delivered outside the United States and its territories.

Note: If you don’t give Form W-4R to your payer, you don’t provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can’t honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2024, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, *Withholding of Tax on Nonresident Aliens and Foreign Entities*, and Pub. 519, *U.S. Tax Guide for Aliens*, for more information.

Specific Instructions

Line 1b

For an estate, enter the estate’s employer identification number (EIN) in the area reserved for “Social security number.”

Line 2

More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate on Line 2 of this withholding certificate.

Less withholding. If permitted, you may enter a lower rate on Line 2 of this withholding certificate (including “-0-”) if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter “-0-”.

Suggestion for determining withholding. Consider using the Marginal Rate Tables (above) to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table. To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate. If these two rates are the same, enter that rate on Line 2 of this withholding certificate. (See Example 1 below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on Line 2 of this withholding certificate. (See Example 2 below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on Line 2 of this withholding certificate.

Examples. Assume the following facts for Examples 1 and 2. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be \$62,000 without the payment. Step 1: Because your total income without the payment, \$62,000, is greater than \$61,750 but less than \$115,125, the

Copyright © 2022, Convergent Retirement Plan Solutions, LLC, Brainerd, MN 56401

corresponding rate is 22%. Step 2: Because your total income with the payment, \$82,000, is greater than \$61,750 but less than \$115,125, the corresponding rate is 22%. Because these two rates are the same, enter "22" on Line 2 of this withholding certificate.

Example 2. You expect your total income to be \$43,700 without the payment. Step 1: Because your total income without the payment, \$43,700, is greater than \$26,200 but less than \$61,750, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$63,700, is greater than \$61,750 but less than \$115,125, the corresponding rate is 22%. The two rates differ. \$18,050 of the \$20,000 payment is in the lower bracket (\$61,750 less your total income of \$43,700 without the payment), and \$1,950 is in the higher bracket (\$20,000 less the \$18,050 that is in the lower bracket). Multiply \$18,050 by 12% to get \$2,166. Multiply \$1,950 by 22% to get \$429. The sum of these two amounts is \$2,595. This is the estimated tax on your payment. This amount corresponds to 13% of the \$20,000 payment (\$2,595 divided by \$20,000). Enter "13" on Line 2 of this withholding certificate.

DEFINITIONS

10-Year Rule. With the 10-Year Rule option when the Inherited IRA is a Roth IRA, or it is a Traditional, SEP, or SIMPLE IRA and the IRA owner died before his/her required beginning date, a beneficiary may take withdrawals as slowly or as quickly as they wish provided all funds are withdrawn by the end of the tenth year following the year of the IRA owner's death. There is no schedule for how payments must come out, but the IRA must be depleted by December 31 of the tenth year.

Life Expectancy Payment Spouse Beneficiary. With the Life Expectancy Payment Option for a spouse beneficiary, when the Inherited IRA is a Roth IRA, or it is a Traditional, SEP, or SIMPLE IRA and the IRA owner died before their required beginning date, a minimum amount must be withdrawn each year beginning in the calendar year following the IRA owner's death. However, a spouse beneficiary may generally elect to delay their first distribution until the calendar year the owner would have attained RMD age (i.e., age 72 if born after June 30, 1949, but before January 1, 1951, age 73 if born after December 31, 1950, and before January 1, 1960, and age 75 if born after December 31, 1959).

Life Expectancy Payment Nonspouse Beneficiary. With the Life Expectancy Payment Option for a nonspouse beneficiary, when the Inherited IRA is a Roth IRA, or it is a Traditional, SEP, or SIMPLE IRA and the IRA owner died before his/her required beginning date, a minimum amount must be withdrawn each year beginning in the calendar year following the year of the IRA owner's death. The life expectancy payment is generally based on the beneficiary's single life expectancy, nonrecalculated. In addition, if the beneficiary is an Eligible Designated Beneficiary only because the beneficiary is a child of the IRA owner and was under the age of 21 on the date of the IRA owner's death the entire Inherited IRA must be depleted no later than December 31 of the year in which the beneficiary attains age 31.

Required Beginning Date. The required beginning date is the date by which IRA owners must begin taking money out of their Traditional, SEP or SIMPLE IRAs. The required beginning date for individuals born before July 1, 1949, is the April 1 following the year they attained the age of 70½. The required beginning date for individuals born after June 30, 1949, but before January 1, 1951, is April 1 following the year they attain age 72. The required beginning date for individuals born after December 31, 1950, and before January 1, 1960, is April 1 following the year they attain age 73. The required beginning date for individuals born after December 31, 1959, is April 1 following the year they attain age 75.
