Riverbridge

CONCENTRATED GROWTH

Fact Sheet - September 30, 2026

OVERVIEW

The Riverbridge Concentrated Growth strategy was established in 2002. It's comprised of no more than 15 companies – across all market capitalization sizes – for long-term investors seeking capital appreciation and long-term capital gains. The portfolio is managed by the Riverbridge Investment Team utilizing our time-tested investment philosophy and disciplines.

INVESTMENT PHILOSOPHY

Riverbridge believes earnings power determines the value of a business, therefore we invest in high quality growth companies that possess the ability to build their earnings power at above-average rates for long periods of time. We define earnings power as companies achieving high returns on invested capital while possessing an enduring strategic advantage in their marketplace.

We build portfolios by identifying and buying well-managed companies we believe can maintain consistent unit growth and strong free cash flow, allowing them to finance their growth using internally generated sources of capital.

Firm Information: Riverbridge Partners, LLC is a Minnesota based investment advisor registered with the Securities and Exchange Commission under the Investment Advisors Act of 1940. The firm provides investment management services to institutional and individual investors. The company offers growth and income oriented investment services which it believes will provide high returns over the long term. The Concentrated Growth portfolio utilizes a performance-based fee schedule. An incentive fee shall be earned by the firm in any calendar year in which the value of the account increases by more than 5% (adjusted for any and all additions or withdrawals). The incentive fee amount shall be 20% of the excess appreciation (above 5%) as long as the account value has reached a new "high water mark" at that point in time. In addition, there is a base fee of .50% of assets under management in the performance-based fee account. The performance-based fees are paid annually immediately following the conclusion of the year.

Composite Characteristics: The Concentrated Growth Composite was created in May 2002 and its inception date was 05/01/2002. It is a growth stock portfolio invested in a limited number of growth companies of all market capitalization ranges. A complete list and description of all firm composites, including broad and limited distribution pooled funds, is available upon request. The composite benchmarks are the S&P 500® Index and the Russell 3000® Growth Index. The S&P 500® Index includes 500 industry leading companies measuring the performance of the large-cap U.S. equity universe. The Russell 3000® Growth Index includes the segment of securities within the Russell 3000® Index with higher price-to-book ratios and higher forecasted growth values. The Russell 3000® Index is an unmanaged index measuring the performance of the broad U.S. equity universe. The benchmark returns are gross of all fees and taxes. The composite minimum value is $100,000.

Material risks of the strategy include stock market, business and economic development, liquidity, and foreign security risk. Leverage, derivatives, short positions and illiquid investments are not used in the strategy. As with any investment, an investor may lose money, and the strategy can underperform its benchmark. Investment in strategies is not insured by the FDIC or any other government agency.

Calculation Methodology: Individual portfolios are revalued daily. Gross-of-fee returns are calculated net of transaction costs and gross of management fees. Effective January 1, 2025, net-of-fee returns are changed retroactively to calculate by reducing the gross returns by the maximum fee charged to any account in the composite for the respective period. The 1.05% model fee is the highest tier of the current composite fee schedule. This fee is applied monthly to the gross return at 1/12th the annual rate, which is 0.0875% per month. The model fee is inclusive of the highest performance fee that could have been incurred during the calendar year assuming a January 1st start date. Historical net-of-fee returns displayed on the report reflect the highest tier for the composite including applicable performance-based fees for each respective year. Actual Fees may vary depending on, among other things, the applicable fee schedule and portfolio size. The composite may contain accounts with performance based fees. Investment management fees are described in Part 2 of Riverbridge's form ADV. Prior to January 1, 2025, net-of-fee returns were calculated on the actual annual fee. Both gross-of-fee and net-of-fee returns are calculated gross of all withholding taxes on foreign dividends. Accruals are included in calculations. The dispersion measure is the equal-weighted standard deviation of accounts in the composite for the entire year. Dispersion and Ex-Post standard deviation is calculated using gross-of-fees returns. Policies for valuing investments, calculating performance, and preparing GIPS® Reports are available upon request.

Compliance Statement: Riverbridge claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. Riverbridge has been independently verified for the period 12/31/1989 – 12/31/2025. A firm that claims compliance with the GIPS® standards must establish policies and procedures for complying with all the applicable requirements of the GIPS® standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS® standards and have been implemented on a firm-wide basis. The Concentrated Growth Composite has had a performance examination for the periods 05/01/2002 – 12/31/2025. The verification and performance examination reports are available upon request.

Composite Benchmark: The benchmark returns are not covered by the report of the independent verifiers. Any indices and other financial benchmarks shown are provided for illustrative purposes only. Information about indices is provided to allow for comparison of the performance of the Adviser to that of certain well-known and widely recognized indices. There is no representation that such index is an appropriate benchmark for such comparison. You cannot invest directly in an index, which also does not take into account trading commissions and costs. The volatility of indices may be materially different from the performance of the Adviser. In addition, the Adviser's recommendations may differ significantly from the securities that comprise the indices.

Past performance does not guarantee future results. This performance report should not be construed as a recommendation to purchase or sell any particular securities held in composite accounts. Market conditions can vary widely over time and can result in a loss of portfolio value.

Performance Disclosures:

- Where presented, gross-of-fee performance figures presented do not reflect the deduction of investment advisory fees. A client's returns will be reduced by the advisory fee and other expenses incurred in the management of its account. For example, the deduction of a 1% advisory fee over a 10-year period would reduce a 10% gross return to an 8.9% net return. A description of Riverbridge's advisory fees are disclosed on Part 2 of its Form ADV, a copy of which is available upon request.
- Composite net of fees returns are calculated by reducing the gross returns by the maximum management fee. This fee is applied monthly to the gross return at 1/12th the annual rate per month. Net of fee returns, including all Composite inception returns, prior to January 1, 2014 are calculated using actual fees and expenses. Actual Fees may vary depending on, among other things, the applicable fee schedule and portfolio size.
- Past performance does not guarantee future results.
- Performance results do not reflect the impact of taxes.
- It should not be assumed that account holdings will correspond directly to any such comparative benchmark index.
- Comparative indices may be more or less volatile than Riverbridge portfolios.
- Riverbridge performance results reflect the reinvestment of dividends and other account earnings, and are net of applicable account transaction charges.
