The portfolio is managed by the Riverbridge Investment Team utilizing our time-tested investment philosophy and disciplines.

INVESTMENT PHILOSOPHY

Riverbridge believes earnings power determines the value of a business, therefore we invest in high quality growth companies that possess the ability to build their earnings power at above-average rates for long periods of time. We define earnings power as companies achieving high returns on invested capital while possessing an enduring strategic advantage in their marketplace.

We build portfolios by identifying and buying well-managed companies we believe can maintain consistent unit growth and strong free cash flow, allowing them to finance their growth using internally generated sources of capital.

Calculation Methodology: Valuations and returns are computed and stated in U.S. dollars. Individual portfolios are revalued daily starting 1/1/2009. Prior to that, individual portfolios were revalued monthly and intra-month when large cash flows (defined at 10%) occurred. Gross-of-fee returns are calculated net of transaction costs and gross of management fees. Until 12/31/2007, net performance was calculated by applying the maximum annual management fee of 1% to gross performance on a monthly basis. Starting 1/1/2008, net-of-fee returns are calculated net of actual investment management fees. Both gross-of-fee and net-of-fee returns are calculated gross of all withholding taxes on foreign dividends. Accruals are included in calculations. The dispersion measure is the equal-weighted standard deviation of accounts in the composite for the entire year. Additional information for valuing portfolios, calculating performance and preparing compliant presentations is available upon request.

A description of Riverbridge Partners' advisory fees are disclosed on Part 2 of its Form ADV, a copy of which is available upon request.
- Past performance does not guarantee future results.
- Performance results do not reflect the impact of taxes.
- It should not be assumed that account holdings will correspond directly to any such comparative benchmark index.
- Comparative indices may be more or less volatile than Riverbridge portfolios.
- Riverbridge performance results reflect the reinvestment of dividends and other account earnings, and are net of applicable account transaction charges.
