DISCLOSURES

Before investing you should carefully consider the Fund's investment objectives, risks, charges and expenses. This and other information are in the prospectus, a copy of which may be obtained by calling (888)447-4470 or visiting www.riverbridge.com/mutual-funds. Please read the prospectus carefully before you invest. The Fund is available for sale in all states.

Risk Disclosures: Investing involves risk, including the possible loss of principal. The Fund invests in small and medium size companies. Investments in these companies, especially smaller companies, carry greater risk than is customarily associated with larger companies for various reasons such as increased volatility of earnings and prospects, narrower markets, limited financial resources and less liquid stock. The Fund invests in foreign securities through the use of ADRs. Foreign investments involve additional risks, including currency fluctuations, political instability, differences in financial reporting standards and less stringent regulation of securities markets. Emerging market countries involve greater risks, such as immature economic structures, national policies restricting investments by foreigners, and different legal systems. The Fund will typically invest in the securities of fewer issuers. If the Fund's portfolio is overweighted in a sector, any negative development affecting that sector will have a greater impact on the Fund than a fund that is not over weighted in that sector.

Past performance is no guarantee of future results. The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. The Morningstar Rating is for the share class specified only; ratings for other share classes will vary. As of 03/31/2018, the Fund received 4 stars for the Morningstar Overall Rating among 549 funds, 5 stars for the 3-year rating among 549 funds and 4 stars for the 5-year rating among 485 funds.
